EDUCATION

RAJIV GANDHI PROUDYOGIKI VISWAVIDYALAYA (LNCT&S COLLEGE)

BHOPAL, MADHYA PRADESH, INDIA

Bachelor of Technology, Computer Science & Engineering with Specialization in Cyber Security

CGPA: 8.39

9.76 SGPA in 1st Sem and 8.63 SGPA in 7th Sem

SKILLS SUMMARY

- **FOUNDATIONAL SKILLS:** Hardware Troubleshooting, Linux, Computer Networking, Basic Bash Scripting, Git
- **OFFENSIVE SECURITY SKILLS & TOOLS:** VAPT Basics, Burp Suite, Nmap, Metasploit, Wifite
- **DEFENSIVE SKILLS & TOOLS:** AlienVault OSSIM, Wireshark (Can identify port scanning, MiTM ARP Poisoning in Wireshark etc.)
- **CYBERSECURITY FRAMEWORKS:** NIST RMF, NIST CSF, OWASP Principle
- **CORE CYBERSECURITY SKILL:** Security Principles, Incident Response & Business Continuity, Access Control Concepts, Network Security, Security Operations, Basics of Security Auditing
- **FAMILIAR CYBERSECURITY TERMS:** CIA Triad, SOC, SIEM, Cyber Kill Chain, Playbooks, OWASP Top 10, PII, SPII
- **GOOD SUBJECT KNOWLEDGE:** Foundational Cryptography, Basic Digital Electronics
- **SOFT SKILLS:** Report Building, Passionate, Adaptable, Problem-Solving, Critical Thinking

INTERNSHIP EXPERIENCES AND TRAININGS

PURPLESYNAPZ – CYBERSECURITY TRAINEE

December 2024 - Current

- Achieved Certification in Basic Networking Fundamentals ([Certificate](#)), mastering OSI model, IP addressing, subnetting, and Cisco IOS Configurations
- Achieved Certification in a comprehensive Wireshark module ([Certificate](#)), mastering packet analysis and troubleshooting techniques for diverse protocols by solving various assignments and dealing with real life like scenarios such as identifying MiTM ARP Spoofing
- Completed Introduction to Cyber Forensics ([Certificate](#)), utilizing tools such as Autopsy, Volatility to analyze & recover digital evidences
- Achieved Certification in AlienVault OSSIM Module ([Certificate](#)) where I learnt about its different components, structure & working of a SIEM module along with that I also gained knowledge on event and alarms generation in a SIEM tool along with its configuration.
- Completed Linux Basics for Security module ([Certificate](#)) in which I learnt about file system and navigation in Linux along with some useful commands like networking commands, system services manipulation commands, and also gained information about important security related system files like (/etc/shadow, /etc/passwd)

CISCO NETWORKING ACADEMY – AICTE VIRTUAL INTERN | [CERTIFICATE](#)

May 2023 – September 2023

- Completed Cisco Networking Academy Introduction to Packet Tracer ([Certificate](#)) training, gaining foundational skills in network simulation and Troubleshooting
- Completed 'Introduction to Cybersecurity' course by Cisco Networking Academy ([Certificate](#)), gaining foundational knowledge in network security & threat analysis
- Completed Cybersecurity Essentials by Cisco Networking Academy ([Certificate](#)), gaining foundational skills in network security, threat analysis, and risk management
- Completed Cisco Networking Academy Introduction to Networks course ([Certificate](#)), covering networking fundamentals, protocols, and hands-on lab exercises
- CCNAv7: Introduction to Networks Completion Letter ([Click here](#))

- Utilized Olly-Debugger for reverse engineering software functions or so called software cracking, leading to enhanced understanding of debugging processes | [Click here to view proof of work](#)
- Established a reverse shell connection using ncat to facilitate remote system access in order to demonstrate command and control of cyber kill chain by creating channel to control a system remotely | [Click here to view proof of work on YouTube](#)
- Demonstrated exploitation of **Mouse Server 1.8.3.4** application using an exploit present on exploitdb, identifying significant security flaws | [Click here to view proof of work](#)
- Guided junior interns to complete their task and solved their issues related to AWS ec2 instance deployment & establishing connection with cloud instance

ACMEGRADE – VIRTUAL ETHICAL HACKING TRAINEE & INTERN | [CERTIFICATE](#)**May 2022 – June 2022**

- Created a comprehensive foot-printing report of college's website, detailing website technology, SSL/TLS certifications, finding subdomains and hidden links. | [Click here to view proof of work](#)
- Created a network scanning report using Nmap for a metasploitable machine, identifying specific vulnerabilities such as outdated services, and exploiting these to demonstrate security risks | [Click here to view proof of work](#)
- Created undetectable malware payloads for Android, Linux, and Windows platforms using msfvenom | [Click here to view proof of work](#)
- Utilized the Metasploit Framework to exploit vulnerabilities in a Metasploitable target machine, enhancing skills in penetration testing | [Click here to view proof of work](#)
- Performed vulnerability assessment on Windows Operating System machine (Win 10 21H2) & Metasploitable 2 using Nessus vulnerability scanner identifying and reporting critical vulnerabilities | [Click here to view proof of work](#)

PROJECTS & HANDS-ON EXPERIENCES

HOSTS IN A NETWORK FINDER USING BASH SCRIPT	LINK
PORT SCANNER USING PYTHON	LINK
NETWORKING & WIRESHARK ASSIGNMENTS IN PURPLESYNAPZ	LINK
REAL WORLD LIKE WIRESHARK SCENARIO ASSIGNMENTS IN PURPLESYNAPZ	LINK
HOME LAB SETUP FOR RED AND BLUE TEAMING	LINK

CERTIFICATES

BY ISC2 (CC Domain 1: Security Principles , CC Domain 2: Incident Response, Business Continuity and Disaster Recovery Concepts , CC Domain 5: Security Operations)	CERTIFICATES FOLDER
BY GOOGLE ON COURSERA (Bits and Bytes of Computer Networking , Foundations of Cybersecurity , Manage Security Risks by Google on Coursera)	CERTIFICATES FOLDER
BY PURPLESYNAPZ	CERTIFICATES FOLDER
BY CISCO NETWORKING ACADEMY	CERTIFICATES FOLDER
BY TRYHACKME (Pre-Security)	CERTIFICATE FOLDER
BY TCM SECURITY (LINUX 101)	CERTIFICATE FOLDER
BY HACKVEDA (Hackveda Certified Professional Cybersecurity Interview Quiz , Achieved Rank57)	CERTIFICATE FOLDER
BY ISRO (Geo Computation and Geo - Web Services)	CERTIFICATE FOLDER
